If it is your intent to cancel your loan and you are within the cancellation deadline, please sign below confirming and authorizing your request to rescind your loan based on the terms and conditions of your loan agreement.

Right to Cancel. You may cancel your payment obligations under your Loan Agreement, without cost or finance charges, no later than 3:00 p.m. Mountain Time of the next business day immediately following the Disbursement Date ("Cancellation Deadline"). Your right to cancel your loan only applies if your loan either hasn't funded or, if it has, the funds are returned to us as explained below.

To cancel your payment obligations on this loan, you must inform us in writing, by or before the Cancellation Deadline, either by email to cs@greenarrowloans.com or by fax (888) 965-3953, that you want to cancel the future payment obligations on your loan.

If we timely receive your written notice of cancellation on or before the Cancellation Deadline but before the loan proceeds have been deposited to Your Bank Account, then we will not debit Your Bank Account and both your and our obligations under this Loan Agreement will be rescinded.

However, if we timely receive your written notice of cancellation on or before the Cancellation Deadline but after the loan proceeds have been deposited to Your Bank Account, then you authorize us to affect a debit to Your Bank Account or your debit card as you chose (see below) in your Payment Choice Authorization for the principal amount of this Loan Agreement.

If we receive payment of the principal amount via the debit, then both your and our obligations under this Loan Agreement will be rescinded. If we do not receive payment of the principal amount by debit to Your Bank Account or your debit card, then this Loan Agreement will remain in full force and effect.

If your loan has funded and according to your payment choice authorization, Greenarrow Loans will initiate a debit entry for the original loan amount which was deposited to your account as a part of the loan origination transaction.
